### Category Q&A

We are creating profiles for staff interested in urban development and its impact on health and wellbeing. Part of this is access to “green space” (or “blue space” in reference to coast, lakes and rivers) Please could you help us capture this?

As interest in prevention grows, use of the **Lifestyle and Risks** category is increasingly applicable when categorising users and resources.

We have added **Access to Recreational Spaces** under Communities to define literature on this topic.

This may be combined with **Population Health** in the Settings field to extract epidemiological studies and public health policy and guidance.

# KnowledgeShare

LKS Administrators should regularly check the Organisations your LKS serves on KnowledgeShare.

From the **Manage Organisations** page under the Admin menu, you can review the organisations you are linked to.

- Do any organisations need to be renamed, merged, removed, or added? Let us know if so.
- Is the OpenAthens Organisation ID correct for each of your organisations?
- Is the list of sites and departments up to date for each organisation? Any departments and sites that were free-typed into member records, rather than selected from the existing list, will appear under: 'Unknown' . These should be regularly tidied up to avoid duplication and incorrect names.

More information on LKS Administrator roles and tasks, including managing sites and departments, can be found in the [LKS Admin Handbook](#).

## New developments

By popular demand, the name of the searcher has been reinstated in the suggested acknowledgement text in evidence search reports.

This was implemented on the Live site on 9 October and will apply to all new searches, as well as previous searches when viewed on the system or downloaded again.

Please acknowledge this work in any resulting paper or presentation as:

Evidence search: Long covid fatigue and swimming/water-based exercise. Rachel Playforth. 16th September, 2024. BRIGHTON, UK: Sussex Health Knowledge and Libraries.

## Forthcoming training and events

### Skills

This online demonstration will help you manage information skills teaching, including either ad hoc teaching or scheduled sessions.

**Tuesday 29 Oct 2024, 1pm– 2.30pm (Teams)**

**Tuesday 10 Dec 2024, 2pm– 3.30pm (Teams)**

### Adding local resources

**Tuesday 12 Nov 2024, 1pm– 2.30pm (Teams)**

### Evidence Search

This online demonstration will help you manage evidence searching with KnowledgeShare.

**Thursday 24 Oct 2024, 2pm-4pm (Teams)**

**Thursday 7 Nov 2024, 10am-12pm (Teams)**

**Thursday 26 Nov 2024, 1pm-3pm (Teams)**

### Member Categorising

**Wednesday 20 Nov 2024, 11am– 12.30pm (Teams)**
